Just Like George

Boy Scouts of Troop 546, Appomattox, must have read about George Washington . . . or at least, really read up on the Boy Scout Handbook about being honest.

In the recent "Klondike Derby" held in Lynchburg, the Scouts of the local troop competed in dragging a Klondike-like sled loaded with gear over a prescribed course. "Gold nuggets" –actually pinto beans – were awarded for various parts of the contest, and Judge gave a Scout one too many. The Scout promptly notified the judge he had been too generous, and the judge was so impressed with the Scout's honesty, he gave him two additional awards.

Even though Troop 546 was not among the top winners, Scoutmasters Floyd Flint and Neal Goldstein think the boys are tops, anyway, and especially the Scout who was as honest as G. Washington!

Folder Replaces Table Model

Co-owner of the TIMES-VIRGINIAN, J. Franklin Vaughan scoops up a handful of folded stationery as the company's right angle folder attached to a Baum folding machine delivers notepaper ready to be boxed. The folder, just recently purchased, can score, perforate, double and triple fold and can be operated at speeds of 12 to 15,000 items per hour. The machine is of special help in getting notepaper ready for delivery. Each year the TIMES-VIRGINIAN prepares thousands of boxes of stationery imprinted with photos and drawings of national and state landmarks, churches, Appomattox Court House National Historical Park points of interest and many more. The machine replaces table models which required more than one operation to make a right-angle fold.

HOLLYWOOD

We had a big snow last week. The bushes and trees were so pretty. You wonder how anyone looking at this beautiful picture could doubt that we have a wonderful and living Lord.

Mr. and Mrs. Lawrence Woodson and Mrs. Robert Hall spent Wednesday with Mr. and Mrs. L. L. Webb and family.

Miss Joyce Webb accompanied them home and spent a few days with them.

Our crowd was light at Hollywood Sunday morning for Sunday school and preaching Sunday night due to the weather and so much sickness.

Mrs. A. W. Slider visited Mr. and Mrs. L.H. Watson and family Wednesday.

Miss Ora Gilbert entered Virginia Baptist Hospital Monday. We hope and pray she may soon be better.

Mr. and Mrs. Carl Holt, of Hurt, Va., visited Mr. and Mrs. H. W. Jenkins Sunday. Mrs. Holt is a niece of Mrs. Jenkins.

We are so glad most of our sick ones are better. We hope all may soon be well again.

We are very glad Mrs. W.H. Elder is able to be out again.

We were very sorry to hear of the misfortune last week of Mr. and Mrs. W. O. Slagle. Their car caught fire and burned up. We are so glad they all were able to get out and no one was hurt.

We hope and pray President Nixon, Mrs. Nixon and their party will have a safe and successful trip and that much good will be accomplished toward world peace from their visit to China.

numbers shows that cow numbers in Virginia are at about the same point as a year earlier, 710,000. Nationally they are up 3 percent.

The bright picture is percent calf crop--we moved from a 91% crop in '70 to a 93% cropin '71. There's still room to go--the National Average is 94%.

* * *

Lambs continue to show a decline in Virginia and the Nation.

* * *

In 1970 when we were selling 17¢ hogs we imported just under 28 million pounds of pork and 3400 head of hogs.

Last year in importation of pork jumped to over 37 million pounds.

* * *

A lot has been said about the warm fall and winter of this year.

But--if you measure the number of growing days between the last day with 32 degree reading in the spring and the first in the fall--we had 27 more growing days in 1970 than in '71.

If you're like a lot of folks that I've talked with recently you'll be planting orchardgrass in the next few weeks. Ask for Virginia 90 orchardgrass seed. This way you'll be assured of the best seed available that is adaptable to this area.

Look at it this way. If the life of an orchardgrass stand is 5 years, you should get the equivalent of another ton of hay compared with imported varieties.

There is a difference!!

Let it snow! Thursday's two-inch snowfall failed to stop plans for these young musicians to attend the District III Regional Chorus held in Richmond Friday, Saturday and Sunday.

Take-off time was 12:30 p.m. Friday as sixteen singers from the Intermediate and County High School departed with their director, Mrs. Karen Gibson (3rd from right)

Mr. Archie G. Snyder of Pearisburg directed the hundred fifty chorus members of eighth and ninth graders. Mr. L. Wayne Batty of the VCU faculty directed the one hundred fifty choir members of tenth, eleventh and twelfth graders.

The Virginia Music Educators Association sponsors state and regional events which encourage the talented musical students by providing opportunities to study and perform in select groups under music directors of national reputation. Each participating student is chosen by his choral department, generally by audition. At the regional event, eleventh and twelfth graders are eligible to audition for membership in the all - Virginia chorus to be held in Roanoke during April.

Can't Stop Now

The American Cancer Society needs your help to continue support of cancer research in 125 universities, hospitals and institutes. Too much is at stake to stop now.

Snows 3 & 4 Cause Changes In Schedule

Despite the weatherman's prediction for rain, snow began falling early Thursday, Feb. 17 and continued through midafternoon, coating the ground and trees and automobile windshields with about three inches.

Public schools in Appomattox were closed at 3 p.m. giving pupils an unexpected one-hour "holiday." It was only the third snowfall of a relatively snowless winter (so far).

Schools re-opened Friday at the regular time, but by closing time on Friday, snow was falling rapidly, continuing with another two to three-inch snowfall accompanied by high winds and low temperatures.

Basketball games were rescheduled for Saturday, club meetings and other gatherings cancelled as the county experienced the inconvenience of snows number three and four. For snowmen builders and sled owners, the wet snow was "just right."

Don't destroy that investment. Help prevent forest fires!
